## Example

Display the time once every second. Use `clearInterval()` to stop the time:

```
const myInterval = setInterval(myTimer, 1000);

function myTimer() {
  const date = new Date();
  document.getElementById("demo").innerHTML = date.toLocaleTimeString();
}

function myStopFunction() {
  clearInterval(myInterval);
}
```

Using setInterval() and clearInterval() to create a dynamic progress bar:

```
function move() {
  const element = document.getElementById("myBar");
  let width = 0;
  const id = setInterval(frame, 100);
  function frame() {
    if (width == 100) {
